

### CUSTOM SAMPLE SYSTEMS

Envent Engineering will custom design an integrated sample system to meet any application requirements.

These sample systems have evolved from a wide variety of requirements and specialized applications.

Systems include: Total Sulfur, Multiple Streams, High Range H<sub>2</sub>S (with dilution), H<sub>2</sub>S in Liquid Hydrocarbons, and LPGs.

**LPG Sample System**

**331 Total Sulfur complete with sample system**

**Dual M70 Moisture Analyzer  
in a Fiberglass Cabinet**
